Report On Fire Safety Mock Drill

Today, 8th January, 2024, our school conducted a comprehensive fire safety mock drill which aimed at ensuring the safety and preparedness of the students.

The mock drill commenced with the activation of the fire alarm by two fire officers, simulating a real emergency situation. The drill revealed a swift

response from the students.

A segment of the drill focused on using fire extinguishers, allowing students to practice proper techniques for dealing with small fires. This enhanced their confidence and competence in

handling such situation.

The fire safety mock drill was a valuable exercise that highlighted the effectiveness of our current emergency response protocols while also identifying areas for improvement. By consistently

practicing and refining these procedures, our school aims to create a safer environment for all.
